---

Hi John. Hope all is going well. I haven't heard from you in awhile, so I guess you have been busy. I am in New Orleans, LA at the LDEQ office assisting with the Hurricane Katrina demo project.

Anyway, I was talking to a few of the LDEQ folks including LDEQ SERO Office Manger, Mike Allgero. He told me that he meet with the newly appointed LDEQ Secretary, Hal Legget, wants EPA to return and continue with removal activities at the Westbank Asbestos site. It appears that they maybe requesting assistance from EPA very soon. What is happening is that alot of folks are moving to the Westbank and tearing down old structures and encountering the ACM all over the place.

I just thought I would pass this info along.

**Sincerely,**
